

How to View Multiple Pages of TIFF File (.tif format)

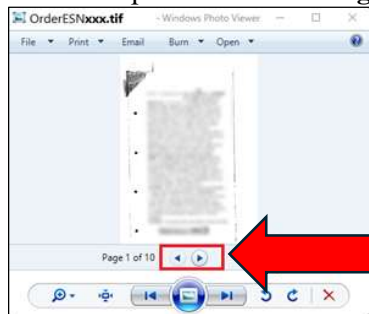

For land document in TIFF file (.tif format) ordered via the IRIS Online Services, if your image viewer can only show the 1st page (instead of all pages of the multi-page document), please follow the steps below to open the file.

(1) Windows

- (i) Save the file (.tif format) to desktop.
- (ii) Right click the file, select “Open with” → “**Windows Photo Viewer (Windows 相片檢視器)**”.
(or select “Choose another app” → “Windows Photo Viewer”)

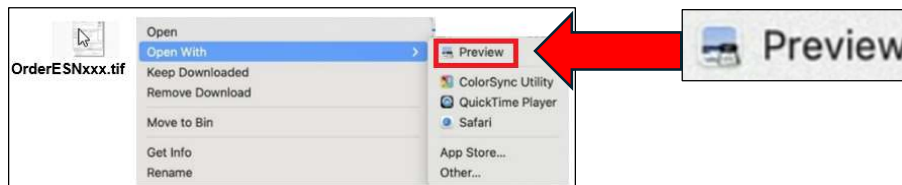

- (iii) The file will open. Click **left/right arrow button (◀ ▶)** to navigate multiple pages.

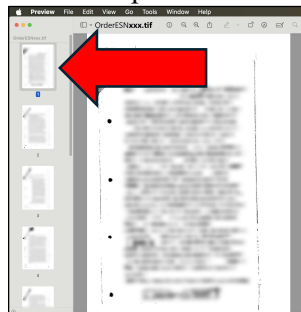

(2) MacOS

- (i) Save the file attachment (.tif format) to desktop.
- (ii) Right click the file, select “Open with” → “**Preview**”.
(or select “Other...” → “Preview”)

- (iii) The file will open. Click **thumbnail** or **up/down keys** on keyboard to navigate multiple pages.

(3) Mobile Phone

- (i) Please use TIFF viewer App (e.g. “**TIFF Viewer**”) to open the file and navigate multiple pages.
